

ASTHA AGRI GENETICS

The image shows the exterior of a modern building with a distinctive design. It features alternating horizontal bands of bright green and white. The green bands are wider and have a slight 3D effect, while the white bands are recessed. There are two visible entranceways, each framed by a white band above and a green band below. The entrance at the bottom has a dark door. To the right, a balcony with a black metal railing is visible. The sky is overcast and grey.
